Questions and Answers about  
Asbestos and EPA's Investigation

**Q:** How can residents in the Troy area get more information about the asbestos investigation and cleanup in the Libby and Troy communities?

**A:** The Montana Department of Environmental Quality (DEQ) and EPA are planning to investigate Troy area homes and businesses for the presence of asbestos. Troy area residents can visit the Troy City Hall located at 301 Kootenai Avenue to pick up brochures and fact sheets or to review reports specific to the Troy portion of the asbestos project. While in Libby, residents can also stop by the EPA Information Center located at 501 Mineral Avenue in Libby.

For site-wide information, residents can also call the EPA Information Center using the **new toll free number: 1-888-420-6810**. In addition, Troy residents can call the DEQ Project Officer, Catherine LeCours, directly at 1-800-246-8198.
